## Imtradex says goodbye to 2012 with exhibitions success

In the last few weeks we had the Control Room Communication in Copenhagen, the Astrid Days in Belgium and the PMRExpo in Cologne as the big highlights on our 2012 exhibition program. Focuses were among other elements, the new BusinessLine 3000 series and our Bluetooth products – OnGuard Bluetooth and Aurelis Bluetooth.

The interest was overwhelming: the PMRExpo took place from the 27th to the 29<sup>th</sup> of November, and we had the opportunity to present our products to some of the 3.300 decisions makers from governments, businesses and control centers. In its 12-year history the show has never before recorded so many participants. The overall environment has also further internationalized which were a significantly benefit for us. Link exhibition film:

Besides the above mentioned products we also had our Aurelis Nexus PTT, our new innovative, ultra-light hand-held microphone, specifically designed for the fire brigade. The interest on the part of the police authorities went to the new additions to our OnGuard family, the OnGuard IV and the OnGuard VSB for covert operation. Whether representatives from the fire and rescue services, the police, control centers, public utilities, airport, public transport or logistics – at the Imtradex booth we have a solutions for all the challenges.

With our broad product portfolio we could also convince at the Astrid User Days in Belgium from the 18<sup>th</sup> to the 19<sup>th</sup> of October. The exhibition which is a focal point for all users focused on the TETRA community, and was very suitable to present our products for digital radios.

We thank all the prospects and customers who visited us at the exhibitions in 2012. We look forward to welcome you at our exhibitions in 2013.

## Meet the people behind Imtradex

Left: **Nicola Bohlmann**, International sales Imtradex. Working for Imtradex since 2009. She likes the international working environment. Each contact and solution is different and the good working atmosphere is also important. Hobbies: Family, horses, friends, skiing and yoga.

Right: **Sven Dickel**, Distribution. Working for Imtradex since 2005. He enjoys his job, as we have a very good team-spirit. Hobbies: Family, football games, friends, and internet.

## Merry Engel

The celebration of Christmas is approaching and an exciting year 2012 is coming to an end. It is the right time to thank you once again for your trust and cooperation.

This year we have decided to dispense presents for Christmas and instead support the young fire-fighters here in Dreieich / Götzenhain with a donation, and to hand over a golden angel to the fire department in Götzenhain.

We want to say thanks - on behalf of many - for the dedication of many young people and forces in the German emergency services. The Christmas angels in Götzenhain are a long tradition. Finally, the place is known nationwide as the "City of Angels". Since 2009 more than 170 angel sculptures are visible on walls or hidden in the homes of Götzenhain. So certainly we are sure that the angel we presented to the local fire brigade also will find a special place.

Otherwise, we are left to wish you and your family a happy and peaceful Christmas. Likewise, a successful start to the Year 2013.

## Product Information:

### BlueTalk

NEW

- provide the interface between the mobile phone/Bluetooth enabled radio and the headset
- available for analog and digital radio
- long battery life
- wireless PTT with 1 button (PTT) or 2 buttons (PTT and full duplex)
- robust housing with dirt – and water-resistant membrane keypad

### KKM

- new and improved version
- available for analog and digital radios
- lightweight and comfortable
- optimal solution when wearing respiratory masks or protective clothing
- temperature range -20°C to 70°C
- also functional in noisy environment

### NB 4000

New Design

- neckband headset in new design
- light, comfortable and pressure free
- high comfort
- especially for noisy environment
- due to the flexible suspension, can be individually adapted to the ear
- available for analog and digital radios

### OnGuard VSB

NEW

- suppression of electromagnetic interference (e.g. Power lines at train stations)
- suitable for analog and digital radios
- flexible induction coil for covert operation
- highly sensitive built-in microphone
- skin-colored hand button for unobtrusive use
